

Consecutive Tee Times Timing

We will time folks as they complete the 9th hole and the 18th hole. You must put the flag back in the hole in no more than 15 minutes from when the previous group put the flag in **OR** you must be on your expected pace of play which will be 2:22 for the front 9 and 2:22 for the back 9.

As you finish 9 and 18 you will be shown a:

1. **Green card** if on time (on or under expected pace of play) No penalty.
2. **Yellow card** if you finish 9 or 18 within 15 min of previous group but are off the expected pace of play - No penalty.
3. **Red card** if more than 15 min behind previous group **AND** behind expected pace of play. **One shot penalty for each person in the group.**

Shotgun Timing

Goal is to complete your round in 4:44 or less. We will track the time from when each group puts the pin back in after finishing the 9th hole and when the group behind them puts the pin back in on 9th and the same procedure on 18. You must be put the flag back in within 15 minutes of the previous group or you will receive a red card. If you are within 15 minutes you will receive a green card. (We will not use yellow cards for a shotgun.) We will time at the 9th pin and 18th pin regardless of which hole you start on in the shotgun.

Green Card = Replace pin within 15 minutes of group in front of you

Red Card = Replace pin more than 15 minutes after the group in front of you. Potential 1 Shot penalty per person in the foursome.

Jim Harari and Roy Wold will serve as a review committee to determine if penalties will be applied to each group receiving a red card.
